

## **Post-Operative/ After SEDATION INSTRUCTIONS**

I, Parent or Legal Guardian of	care at <b>ALL TIMES</b> . If he/she is not being
<ul> <li>The Following RISK could include but is NOT Limited to the Following:         <ul> <li>Bleeding if child had fillings below gum line, crowns and/or extractions</li> <li>Swelling of the lips, especially the lower lip from biting, sucking, or pinching of the lip</li> <li>Soreness, tenderness, pain from dental procedure performed</li> <li>Dizziness and/or drowsiness from the effect of the medication</li> </ul> </li> </ul>	
Caring after SEDATION	
After the child is brought back to you, he/she will still be feeling sleepy. Make sure the child is not out of your sight; no playing, running around, or any hard activities. Doctors advise giving your child lots of cold fluids to help flush out the medication quicker. Patient is free to eat the following soft foods: Jell-O, Pudding, Apple Sauce, Mashed Potatoes, Mac & Cheese, Soups, Ice Cream, and Yoghurt etc. No eating hard, heavy or sticky foods until 24 hours after sedation. It is okay for child to take a nap as long as parent in constantly checking that they are breathing correctly every 15-30 minutes.  I hereby understand the instructions for my child that was given to me by the dental staff of Sunny Dental
